

CHINA: SHIP WASTE MANAGEMENT

Land & Sea Environmental Consultants Ltd. was contracted by the World Bank to develop, appraise and supervise the implementation of a Ship Waste Project for China. The project was funded by the World Bank and the GEF Fund (Managing Pollution of International Waters). The Project involved the Port Authorities of the six largest ports in China: Dalian, Tianjin, Shanghai, Ningbo, Xiamen and Guangzhou, as well as the Harbour Superintendencies Administration. **Land & Sea** was involved in preparation of the Staff Appraisal Report, Annual Implementation Supervision Reports and the Implementation Completion Report.

Client: World Bank
