

CANADA: ENVIRONMENTAL ASSESSMENT OF PROPOSED HALIFAX REGIONAL SEWAGE TREATMENT SYSTEM

Land & Sea Environmental Consultants Ltd./ OCL Group was retained to evaluate the impacts on marine water and sediment quality related to placement of a large primary sewage treatment facility serving Halifax-Dartmouth area (pop. 300,000). Land & Sea's activities included:

- Evaluation of existing water and sediment quality
- Environmental assessment of impacts related to construction of new sewage treatment plant
- Assessment of contaminant loadings in all sewage discharges;
- Use of contaminant loadings to project treatment requirements or management techniques for overflows
- Presentation of results to the Joint Federal Provincial Environmental Assessment Panel.

Client: Jacques Whitford Environment Ltd. on behalf of the Halifax Harbour Cleanup Corp.
